Pat

Sorry for the delay but Mayor Phillips and I have been working on this response.

Please review the attached files and let me know your thoughts.

Thank you;

*Michael S. Jacobs*

Hi Mike

Just a reminder to see if you've looked at the language for the signs. Sorry to keep bothering you, but we need an answer (or your suggestions) as soon as possible. Our sign maker is ready to go as soon as we can get the company the correct language. Please feel free to email or call me at 646.369.0068 with any questions.

Thanks, Pat

Subject: Raritan Bay Slag Site

Hi Mike

I called your office to let you know that Channel 4 would be at the site today at 2 pm. I hope you got the message. It will be on at 5 pm tonight. I know we are scheduled to meet with the Environmental Commission on April 1st. We're hoping to put an outreach program into effect right after that meeting. In the meantime, we're working on language for the signs we plan to put on the beach and seawall. I know we all agreed that aggressive language is needed. I've put together some draft language for a sign and would like to run it past the mayor asap. Would you please send it to him or if you send me his email, I'll send it.

I'm sure the article in the Star Ledger today and the news story on tonight will spur a lot more interest in the site. We will be sure to keep your office informed.

We need to finalize the wording for the signs by Monday of next week so we can get our contractor busy making them. Please let me know what you and the Mayor think and feel free to comment, edit, etc.

Thanks  
Pat
